LASER AIR CUTTING

PLUG & PLAY

Designed for Laser Cutting

CUT FASTER & SAVE MONEY

MSS Aircube

DESIGNED FOR LASER CUTTING

PLUG & PLAY

Cut Faster & Save Money

- ◆ Compact footprint
- ◆ High pressure air cutting 580psi / 40bar
- ◆ Large flowrate capability 5450scfh / 155m³/h
- ◆ All in one air compressor/booster technology
- ◆ Lower generation cost compared to pure nitrogen
- ◆ Low running costs
- ◆ Aluminium edge quality same as cutting with N₂¹
- ◆ Reduce burr in aluminium at greater speed
- ◆ Cut mild steel more cost effective than with nitrogen
- ◆ High pressure air supply only requiring electricity
- ◆ Simple installation within 1 hours, Plug & Play
- ◆ Seamless integration to NitrO₂ as Oxygen input
- ◆ Electrical supply 480-3-60VAC. Power 40.2hp/30kW

¹ Edge quality on stainless and mild steel slightly compromised compared to pure nitrogen or mix gas
