# MSS NitroCube™ ECO

Worlds No.1 laser cutting nitrogen generation system

The real alternative to bulk  
or bundled gas

## Key Features

- Plug & Play technology for quick & easy site installations
- High Purity Nitrogen 99.5% - 99.999%
- Nitrogen flow rates 7 - 90 M3/h\*
- Suitable for single or multi laser sites
- Suitable for any laser system CO<sub>2</sub> & Fiber
- High Pressure (300bar) nitrogen storage as standard
- Low cost nitrogen with proven savings
- Transparent ROI budgeting
- Super quiet operation
- Super compact

\*Higher flow rates available with multiple connected systems
